Why Commonly Confused Words Matter

Commonly confused words are words that sound alike or have similar spellings, but have different meanings. These words can be a major source

of errors on the GRE verbal reasoning section.

For example, you might know the word "affect" means "to influence," but do you know that "effect" means "a result"? Or, you might be familiar with "principal" as "a head of a school," but how about "principle" as "a fundamental truth"?

Mastering commonly confused words is essential for achieving a high score on the GRE verbal reasoning section.
