The author grew up in a conservative Muslim household, where they were taught that homosexuality was a sin. They struggled to reconcile their faith with their queer identity, and for many years they lived in shame and secrecy.

But as they grew older, they began to question the traditional teachings of Islam. They realized that there were many different interpretations of the Quran, and that some scholars believed that homosexuality was not a sin.

They also found support from other queer Muslims, who helped them to see that they were not alone.

The author's journey is not easy. They face discrimination and rejection from both the Muslim and LGBTQ+ communities. But they are determined to live an authentic life, and they are using their voice to speak out for the rights of queer Muslims.

This book is a must-read for anyone who is interested in LGBTQ+ rights, religious identity, or the human experience. It is a powerful and moving story that will stay with you long after you finish reading it.
