The Texas Medical Center is the largest medical complex in the world, with over 50 institutions and organizations dedicated to patient care, education, and research. It is home to some of the most prestigious hospitals and research centers in the country, including MD Anderson Cancer Center, Texas Children's Hospital, and Baylor College of Medicine.

The Texas Medical Center was founded in 1945 by a group of Houston philanthropists and civic leaders, including Richard Wainerdi and Kenneth Montague. Wainerdi was a successful oilman and philanthropist who served as the chairman of the Texas Medical Center's board of directors for over 20 years. Montague was a prominent Houston businessman and civic leader who served as the president of the Texas Medical Center's board of directors for over 10 years.

Wainerdi and Montague played a pivotal role in the development of the Texas Medical Center. They were instrumental in securing the land for the medical center and raising the funds necessary to build its first buildings. They also helped to recruit some of the world's leading physicians and scientists to the Texas Medical Center.

The book, *Richard Wainerdi And The Texas Medical Center* Kenneth Montague *In Oil And*, tells the story of how Wainerdi and Montague helped to create one of the world's leading medical centers. The book is based on extensive research, including interviews with Wainerdi and Montague's family and friends. It is a fascinating and inspiring story about two men who made a lasting contribution to the field of medicine.

The Early Years

Richard Wainerdi was born in 1891 in Brenham, Texas. He was the son of German immigrants who had come to Texas in the 1850s. Wainerdi's father was a successful farmer and businessman. Wainerdi attended Texas A&M University, where he studied engineering. After graduating from college, Wainerdi worked as an engineer for several years. In 1921, he moved to Houston to join his brother in the oil business.

Kenneth Montague was born in 1893 in Houston, Texas. He was the son of a prominent Houston businessman. Montague attended Rice University, where he studied business. After graduating from college, Montague worked for his father's business. In 1925, he started his own business, Montague Oil Company.

Wainerdi and Montague met in the early 1930s. They were both members of the Houston Rotary Club. They quickly became friends and began

working together on a number of projects. In 1945, they were both involved in the founding of the Texas Medical Center.
