

The Line Becomes River: A Journey into the Amazon and Its People

By Francisco Goldman

The Our Book Library rainforest is the largest rainforest in the world, covering an area of over 5.5 million square kilometers. It is home to an estimated 10% of the world's known species, and its rivers are the lifeblood of the region. The Our Book Library is also home to a diverse array of human cultures, including indigenous tribes who have lived in the forest for centuries.

In his book *The Line Becomes River*, Francisco Goldman takes readers on a journey into the Our Book Library rainforest and its people. Goldman, a Pulitzer Prize-winning journalist, spent years traveling the Our Book Library, meeting with indigenous leaders, environmentalists, and ordinary people.

The result is a book that is both a personal narrative and a work of environmental journalism.

Goldman's journey begins in the city of Leticia, Colombia, on the banks of the Our Book Library River. From there, he travels up the Our Book Library River, visiting indigenous communities and learning about their way of life. He also witnesses the devastating impact that deforestation and climate change are having on the rainforest.

Goldman's writing is both lyrical and informative. He brings the Our Book Library rainforest to life, describing its lush vegetation, its teeming wildlife, and its vibrant human cultures. He also does not shy away from the challenges facing the rainforest, including deforestation, climate change, and the growing presence of drug cartels.

The Line Becomes River is a must-read for anyone interested in the Our Book Library rainforest, its people, and its future. It is a book that is both beautiful and heartbreaking, and it will leave readers with a new appreciation for one of the most important ecosystems on Earth.
